

ener.CON Europe 2014

The leading event for improving energy efficiency for asset intensive industries in Europe

20th–21th March 2014 / Berlin / <http://enercon2014.webconnect.com/en/>

"A very important topic with leading players of the market. Excellent level of organization."
Tamas Bakos, Atlas Copco Airpower N.V.

The **ener.CON Europe 2014** has now become one **of the leading conferences** for strategic approaches and challenges in the field of energy efficiency, energy savings in plants & facilities for asset & energy intensive industries and would be the perfect opportunity for you to **share** experiences and discuss about the current **challenges**, brand new **approaches** and **future trends**.

What can you expect from the ener.CON Europe 2014?

The ener.CON Europe 2014 will mainly focus on the following topics:

- **Integrated Strategies, Concepts & Systems**
 - Increasing energy efficiency through systematic energy management in asset intensive industries
 - Optimization of utility systems & energy efficiency management in a global production network & on a local scale
- **Energy Efficiency & Total Plant Asset Management**
 - Total plant asset management & energy efficiency
 - Cogeneration techniques in incineration plants: Optimizing energy conversion and environmental considerations
- **Energy efficiency planning & design**
 - Operation & maintenance contracts in industrial plants and energy efficiency: Working with specifications
 - Energy Efficiency and integration in design & construction of production
- **Energy Audits & Monitoring**
 - MES Implementation for saving energy at the plant floor
 - ISO 50001 certification program – challenges in planning & integration, first learning from current projects and future developments
